SNAPSHOT | Rail Safety Investments

2015 Budget for a Better Minnesota

Every day, trains carrying oil and other hazardous materials pass through Minnesota. These trains present real risks to public safety and our natural resources. That is why Governor Dayton's budget proposal calls for strategic investments in Minnesota rail safety improvements, to ensure the safety of Minnesotans living near railroads carrying hazardous materials. Specifically, the Governor's proposal would fund these 75 priority railway safety infrastructure improvements.
